

Experience the old winegrower tradition in Cochem with its world famous Reichsburg Castle and be guest in a Moselle-typical family winery. The winemaker in person explicates how wine is produced and shows you all important steps of production in the vineyards aside the winery, in the pressing hall with the wine press, at the must centrifuge, in the barrel hall with oak wood barrels, in the bottling- and labelling hall. We'll be glad to show you absolutely unique rarities: our oak wood barrel cellar in a shale rock tunnel in the vineyard and our 100 years old vineyard railway with locomotive, barrel lorry, tip lorry and trackage in the precipitous vineyards.

Vineyard Hike With Chairlift Ride
 • Our favoured half-day-program •

A unique experience: our downhill hike through the "Herrenberg" vineyards. Feel the enchantment of a spectacular view on the medieval town on Cochem and the Mosel loop.

The winegrower starts the tour and his explanations at a centrally located meeting point of your choice (e. g. Tourist Information Office). From there you pass the medieval fortifications and the entrance of „Kaiser Wilhelm Tunnel“, with it's 3 miles the formerly longest railway tunnel in Germany, on your way to the base station of the chairlift.

During the lift ride you have a spectacular view on the „Reichsburg“ castle, the romantic medieval „Winneburg“ castle ruin and the picturesque Old Town of Cochem. On the summit of the mountain, at the „Pinner Kreuz“ (the summit cross), you then enjoy a magnificent panorama of the Mosel loop, the vineyards, the districts of Cochem and throughout the valley.

The hike downhill leads through vineyards and coppice, where the moufflon (*bighorn*) game is native. On a rock belay in the vineyard we'll have a rest with a glass of delicious Mosel wine, a rustic regional style snack and a talk about viticulture and regional history.

Back in the valley you are awaited by a winery tour and a wine tasting in our winery on the foot of the „Herrenberg“ vineyards.
